CEASE is a project of the
Survival Education Fund

Dear Friends of PEACE,

We are entering our 36th year of working together toward building a peaceful and just world for children everywhere. You will be able to locate new information on our website regarding some of the changes we have made, such as the name change from CEASE to PEACE as well as current updates about our organization.

Our website and Facebook page has been very active over the last year and many of our members have posted valuable articles, children's books supporting peaceful education in the classroom, and informative peace education workshops around the country. We are currently dealing with difficult times in which we see PLAY diminishing from preschools and stress brought upon Kindergartners due to the new common core. We urge our fellow friends to contact their local and State educational officials, as well as local media, and urge them to restore developmentally appropriate curriculum in preschool and Kindergarten classrooms in our country.

This Fall packet includes information from our allies with whom we continue to work closely. Also included are descriptions of workshops for the upcoming NAEYC conference in Orlando and an update on the success and great work conducted by our Peace Camp organizers in Southern California.

We invite you to attend our 2015 NAEYC workshop ***Peace Education in Three Settings: Peace Camps, Pre-Service Training, and Children Recovering from Disasters*** and stop by our Interest Forum networking booth in the Exhibit Hall. Visit our website www.peaceeducator.org, check out our new Facebook page "Peace Educators" and join our active list serve: act4peace.

Please continue you're your connection to P.E.A.C.E. We don't want to lose you! This will be your last paper communication from us unless you send in the enclosed reply form. We are switching to email delivery of our publications and want to have your email address. You may also request to continue to receive paper mailings. But we must hear from you!

Together, we *can* create a safe, just, and peaceful world.
In Friendship and Peace,
P.E.A.C.E.
